# Price Guide for Secondary Schools

# SECONDARY SCHOOL BOOKS (8-4-4)

## English

### Head Start Secondary English

Head Start Secondary English combines the thrill that comes only from well-written passages and humorously developed anecdotes and the benefits of reinforced listening, speaking, reading and writing skills.

Carefully written by English language experts, each book draws on real-life situations, practical issues and global trends to help learners sharpen their communication skills.

As its title suggests, this course gives the students the required head start in the acquisition of language skills. It is a treasure trove for students of English.

A comprehensive Teacher's Guide accompanies each book in the series.

Shreds of Tenderness, <i>Ruganda</i>		690.00	800.40
<i>Kinjekitile (English)</i>		550.00	638.00

## Moses Series

The stories in this series are woven around a young boy named Moses. There is always something Moses is up to and there is simply no way of knowing what it is until you read all by yourself. A prank here, a wonderful joke there and a toe-crinkling adventure there.

Set in a school, the series brings to the learners a world they can very quickly identify with. Mukibi's Educational Institute for the Sons of African Gentlemen is where it all happens.

## ➤ Mathematics

### Mathematics Today

*Mathematics Today* is a new series specially designed to fully meet the objectives of the revised Mathematics syllabus for secondary schools. With its numerous step-by-step examples to help learners relate mathematical concepts with their day-to-day experiences, the series contains exciting and informative anecdotes that make the study of mathematics fun-filled and enlightening. The chapters include a section of exam-grade questions that will assist the learners to prepare for Mathematics examinations.

The series has been developed by a team of teachers with vast experience in teaching Mathematics.

An answer book for each level is also available.

## Discovering Secondary Mathematics

Discovering Secondary Mathematics is the result of thorough research into the needs of learners by a team of Mathematics experts. The series comprehensively covers the new Mathematics Syllabus for Secondary Education.

This course incorporates emerging scientific and technological issues and provides ample examples to help the learners fully understand different mathematical concepts.

Discovering Secondary Mathematics builds on the knowledge students have acquired at primary level and brings them to a new and more complex understanding of Mathematics.

A comprehensive Teacher's Guide accompanies each book in the series.

## Chemistry

### Chemistry Today

*Chemistry Today* is a new series specially designed to fully meet the objectives of the Chemistry syllabus for secondary schools. The book has been written in a simple language that is easy to understand. It offers a step-by-step guide to practical activities to enable students carry out experiments successfully and make accurate inferences. It is highly illustrated in colour to assist the student to understand concepts easily. The series also contains exciting and inspirational stories about pioneer scientists. Each topic has a revision checklist to guide the student through the key concepts.

An answer book for each level is also available.

## History

### Evolving World

The Evolving World takes you through a journey of millions of years.

After introducing himself, Early Man relates to you the stages he went through as he evolved from a hunter-gatherer into an agriculturalist, traveller, trader, industrialist and a scientist.

He stopped at nothing to build fortified settlements, form strong governments, develop a high sense of nationalism, invent arms and declare upon himself both 'Hot' and 'Cold' wars. Then, having realized his mistake, he embarked on an aggressive search for peace.

The Evolving World brings you the full story in an exciting manner.

A comprehensive Teacher's Guide accompanies each book in the series.

## Life Skills

### Essential Life Skills

Essential Life Skills is a new series that fully meets the objectives of the Life Skills Education Syllabus for secondary schools.

The series is aimed at equipping the students with skills that will enable them to perform well academically as well as overcome the various challenges that they may face in or outside school. It employs a learner-centred practical approach to the acquisition of the various life skills.

The books in this series provide:

- numerous activities to ensure full participation of the students.
- simple and straightforward explanations to help students clearly understand the skills and values presented.
- clear photographs and illustrations to enable the students to appreciate various life situations.

A comprehensive Teacher's Guide accompanies each book in the series.

### **360° Atlas for Secondary schools - 3<sup>rd</sup> Edition**

The Oxford 360° Atlas is the latest, most accurate and easy to use atlas on the market. It fully covers the Geography Syllabus as the content is relevant to the curriculum and complies with mapping specifications and content.

The atlas is very strong on articulating cross-cutting contemporary issues such as environment and HIV and AIDS.

The atlas contributes positively to development of skills and concepts of the curriculum, particularly Geography, History and Government, Agriculture, Biology, Environment and languages. The new edition has a comprehensive coverage of the Counties.

## ➤ Revision Books

### Test it & Fix it KCSE Revision

Test it & Fix it KCSE Revision provides an in-depth coverage of the new secondary syllabus. Developed by a team of experienced authors, examiners and teachers, each book contains tests designed to help candidates identify any problems they may have in a particular subject and fix them.

The books in this series provide:

- summary notes on each topic
- practice and revision exercises
- model examination papers
- answers to all the questions
- study and examination skills.
